My Health Record presentation

Sydney North Primary Health Network invites you to learn more about your My Health Record, an online summary of your key health information. This year the Australian Government is creating an online health record for all Australians, unless they choose not to have one.

Having a My Health Record allows you to control and view your health information including GP visit summaries, specialist letters, hospital discharge summaries, medicines, and pathology and test results. Having your health in your hands puts you at the centre of your healthcare.

To find out more, please attend one of the below sessions.

Venue: Dougherty Centre, 7 Victor Street, Chatswood NSW 2067
