

Announcement.

## The Advance Project is launched!

Advance is an exciting new training package and set of resources for all nurses working in general practice.

What's it all about?

Here are the 6 key things you need to know about Advance!

1

Advance is specifically designed for you - as a nurse working in general practice in Australia.

2

Advance is a practical toolkit of screening and assessment tools and a training package.

3

Advance promotes earlier advance care planning and attention to palliative care in general practice.

4

You're invited to participate in an audit of the assessment tools. And we will even reimburse you for your time.\*

\* Available to the first 450 participants.

5

**It's free!**

...plus it counts for CPD points.

6

Advance is funded by the Australian Government Department of Health, and endorsed by the Australian Primary Health Care Nurses Association (APNA).

This activity has been endorsed by APNA according to approved quality standards criteria
