## ■ Early detection & management of colorectal cancer

**Dr Walid Barto** MBBS (Syd), FRACS, CSSANZ

Learn to recognise signs and symptoms of colorectal cancer, screening methods, and principals of management of early rectal cancer.

**Dr Barto** obtained his medical degree at the University of Sydney before commencing basic surgical training at John Hunter Hospital in Newcastle. He completed his general surgical training at St Vincent's Hospital and was awarded the Royal Australasian College Fellowship in 2009. He undertook additional training in colorectal surgery at the Alfred Hospital, Melbourne and at Westmead Hospital in 2010 as a fellow of the Colorectal Surgical Society of Australia and New Zealand. Dr Barto has a special interest in advanced laparoscopic colorectal cancer surgery, laparoscopic hernia surgery, and trans-anal endoscopic micro-surgery (TEMs). Dr Barto has been an Accredited Medical Officer at the Sydney Adventist Hospital since 2011.

## ■ Pancreatic Cancer: malignant & cystic lesions

**Dr Christos Apostolou**

MBChB, MMed (Surg), Cert. Gastro (SA) Surg, FCS (SA), FRACS

Understand pancreatic cancer and cystic pancreatic lesions, including current concepts, recent trends and an overview of available management options.

**Dr Apostolou** is an upper gastrointestinal surgeon at the Sydney Adventist Hospital, Macquarie University and Bankstown Hospitals. Having trained in South Africa and Australia, he is interested in the management of upper digestive and pancreaticobiliary disease, holding expertise in open, laparoscopic & robotic surgery, and endoscopy.

## ■ Understanding benign & malignant liver tumours

**Dr Sulman Ahmed** FMBBS (Syd), MS (Syd) FRACS

Develop your understanding of diagnostic investigations, treatment trends and management options for benign and malignant liver tumours.

**Dr Ahmed** is a general and hepatobiliary surgeon at the Sydney Adventist Hospital, Nepean Public and Nepean Private Hospitals. Dr Ahmed attended Trinity Grammar School, studied Medicine at the University of Sydney and undertook surgical training through Westmead and Nepean Hospitals culminating in a Fellowship in 2007. Dr Ahmed is a current RACS examiner and endoscopy committee member and has a strong interest in gallbladder, hernia and liver surgery. He also performs upper and lower endoscopy and ERCP.
