COMMON KNEE PROBLEMS - A Hands-on Overview for GPs

Please join us for a special education event which will focus on assessing common knee problems. The aim is to provide you with practical tips for immediate use in your practice, such as:

- How to examine knees with confidence
- Recognising common knee injuries
- How to treat meniscal tears in the middle-aged patient
- When to refer for knee replacement
- Understanding "ACL" doesn't equal "reconstruction"
- The negative consequences of ordering imaging
