IMMUNISATION SAVES LIVES

- ✔ Getting vaccinated will protect you from serious diseases like measles, whooping cough, tetanus, hepatitis B and human papillomavirus.
- ✔ Vaccinations are required or highly recommended to:
 - travel overseas
 - work as a health professional
 - attend some courses for trades and hospitality careers.
- ✔ Recommended vaccines are now free until 19 years of age.
- ✔ Ask your GP or vaccination provider today for advice on catching-up.
