# Global Obstetric Update 2018

29 November – 1 December 2018

Park Hyatt, Melbourne Australia

## Dealing with the ‘placenta gone rogue’... preeclampsia, growth restriction and accreta

*Manchester, Cambridge, Texas, Edinburgh, Perth, Sydney...*

Experts from across the globe descend on Melbourne to present  
THE definitive clinical update for 2018

**A ‘disease of theories’ no longer:  
an overview of how preeclampsia evolves**  
Dr Jenny Myers, The University of Manchester

**What to tell patients about vaginal seeding and  
the microbiome – lessons from the world’s guru**  
Professor Kjersti Aagaard,  
Baylor College of Medicine, Texas

**Recording fetal movements – does this matter?**  
Professor Jane Norman, University of Edinburgh

**A closer look at the risk factors for stillbirth**  
Professor Gordon Smith, Cambridge University

**Evidence based approach to controlling blood  
pressure that is a little high, or scarily high**  
Dr Jenny Myers, The University of Manchester

**The lifelong health consequences for mothers  
who have had preeclampsia**  
Professor Mark Brown, past president of  
the International Society for the Study of  
Hypertension in Pregnancy

**Monitoring the growth restricted fetus  
and deciding when to deliver**  
Dr Edward Johnstone, The University of Manchester

**“Common” fetal malformations and what to  
do with them: A guide for the generalist**  
Professor Jon Hyett, University of Sydney

**An update on cholestasis of pregnancy**  
Dr Amanda Henry, University of New South Wales

**Managing PPH – a closer look at the evidence  
behind each step to turn off the tap...**  
Professor Michael Permezel, University of  
Melbourne, past president of RANZCOG

**The race to develop an artificial placenta**  
Dr Matthew Kemp,  
University of Western Australia

**Dealing with a placenta accreta – a  
guide for the (nervous) generalist**  
Dr Michael Rasmussen,  
Mercy Hospital for Women

\$850 Midwife/student and \$1,400 General [www.gou2018.com.au](http://www.gou2018.com.au)
