

Hepatitis B Case Discussion Interactive Prescriber Update Evening

Developing a sustainable HIV, viral hepatitis, and sexual health workforce

Collaborating partners:

Date: Tuesday, 21 May 2019

Venue: Rydges Camperdown | 9 Missenden Rd, Camperdown, NSW 2050

Time: 6:30pm – 9:00pm

(registration at 6:15pm, dinner served promptly at 6:30pm).

This Update will also be run as a webinar which will commence at 7:00pm

This case discussion evening will be facilitated by Dr Ken Liu, a local specialist with expertise in hepatitis B, and will take place over an informal dinner.

Participants will discuss newly developed cases covering topics requested by GP prescribers, including hepatitis B in pregnancy. Attendees are also encouraged to submit their own cases for discussion.

At the end of the session, participants should be able to:

- Screen at-risk patients, accurately diagnose CHB infection and assess phase of the disease
- Monitor patients appropriately, establish suitability for treatment
- Describe aims of treatment, antiviral treatment options, duration of therapy and definitions of response
- Monitor patients on treatment according to established protocols, recognise and manage treatment response, resistance, hepatitis flares, and encourage compliance
- List risk factors, clinical signs, symptoms and complications of advanced liver disease and appropriately manage or refer to specialist care appropriately

This evening is **free** for NSW-practicing HBV s100 prescribers, and dinner will be provided. **This update will also be run as a webinar.** We encourage all Hepatitis B s100 prescribers in NSW to attend this session in person or by webinar.

Speaker:

Dr Ken Liu,
Staff Specialist Hepatologist at Royal Prince Alfred Hospital
