## Speaker & Learning Objectives

### Speakers

**DR WALID JAMMAL | PRACTICING GP and PRACTICE OWNER**

Dr Jammal is also a Clinical Lecturer at the University of Sydney and Conjoint Senior Lecturer at Western Sydney University. His practice is a lead site in the Commonwealth's Health Care Home Trial. He has interest and expertise in care integration and the patient centred medical home.

**DR PARESH DAWDA | PRACTICING GP and UNIVERSITY LECTURER**

Dr Dawda has a diverse portfolio of roles including leadership, academic and consulting roles including Honorary Professor at ANU and Adjunct Professor at the University of Canberra. He is the author of key papers relevant to high performance primary care including the King's Fund Paper on Quality Improvement in General Practice.

### Learning Objectives

- Understand the difference between data for improvement, data for research, and data for accountability and performance
- Understand the principles of collecting and analysing practice data, including developing a detailed understanding of variation and its influence
- Understand the difference between process and outcome measures
- Develop a detailed understanding of the model for improvement and PDSA cycles
