

## Digital Health in Practice

**Attention: GPs, practice nurses and managers**  
Regular training in the use of My Health Record via medical software is available to end June. Come along to increase your confidence using My Health Record and improve your practice's data quality

Have you uploaded and viewed Shared Health Summaries or viewed pathology and imaging reports on a patient's My Health Record? This training session will demystify the process, providing you with more confidence using My Health Record and also discuss data usage as related to quality improvement and safety.  
Smaller group training.

### Speaker & Learning Objectives

#### Speaker

#### Sue Cummins, Train IT Medical

(BA, Dip IT, TAE40110) is Train IT Medical Senior Trainer and works closely with medical practices to improve their use of technology and meet accreditation requirements. Sue's background is in the private sector in IT Management roles with a focus on software systems delivery and project management. Sue specialises in quality improvement projects, Aboriginal health and process improvements for risk minimisation and efficiency improvements.

#### Learning Outcomes

By the end of the training, participants will be able to:

- Access a patient's My Health Record and upload a Shared Health Summary and Event Summary
- Access and utilise reports related to My Health Record and quality improvements
- Develop a plan for their own practice data to meet safety, accreditation and practice incentive requirements
