

Educational Dinner Meeting

The practical management of Atopic Eczema and Contact Dermatitis.

GPs commonly see neonates, children and adults with itchy skin, either as the presenting problem or as a secondary issue ("By the way, doctor..."). Dr Tong will facilitate an interactive session using illustrative case studies on common skin rashes that may present to your clinic

Dr Philip Tong is a nationally recognised speaker and expert in inflammatory skin disorders. He holds a number of appointments at The University of Sydney, The Skin Hospital, St Vincent's Hospital and Private practice in Eastwood. He enjoys teaching and currently facilitates workshops for the Australasian College of Dermatologists.
