

# Basic Life Support-CPR for General Practice

Sydney North Health Network (SNHN) invite GPs and general practice staff to a Basic Life Support (CPR) course specifically designed for all practice team and all primary care settings. The evening will include a separate clinical component for GPs and nursing staff, using practice comparable equipment. Skills review includes CPR for all ages, basic and advanced ventilation techniques, airway adjuncts, defibrillation and review of practice equipment

This education is a CPD Activity under the RACGP CPD Program, activity number 184547

## Trainer & Learning Objectives

### TRAINER

**Simon Gould - Assoc. Degree in Voc. Ed. and Training, Dip. Paramedical Science - Pre-Hospital Care, Cert. IV in Training and Assessment (TAE), RACGP EAR, Nationally Accredited Instructor/Examiner.**

### LEARNING OUTCOMES

- Identify and apply the steps that need to be taken in the event of a cardiac arrest patient in the general practice setting.
- Recall the appropriate methods and processes of gaining emergency assistance in the general practice setting, in the event of a cardiac arrest.
- Manage a suspected cardiac arrest including the demonstration of BLS-CPR procedures, including the delivery of effective ventilations and compressions and use of an AED on all age groups using anatomically appropriate resuscitation manikins.
- Implement strategies in the practice to reduce the emotional impact of an emergency on individuals and the team.

**BOOK EARLY AS THIS TRAINING IS LIMITED TO 25 PARTICIPANTS**

**\*Introduction of event fees for CPR training from January 2020**

*Sydney North Health Network provides a broad range of free high-quality education and professional development opportunities each year.*

*With increasing demand and to provide additional opportunities, from January 2020, SNHN will charge a fee of \$70.00 (plus GST) for CPR/BLS training.*

**Registration must be completed through our website**
