APAC/GP Clinical Review Payment Initiative

Process Overview

An initiative commenced in February 2020 to facilitate the payment to General Practitioners (GP's) who undertake a medical review of patients admitted to the APAC (Hospital in the Home) service.

The payment for the clinical review substitutes the requirement to claim from Medicare. GP's receive payment at the consultation rate of \$83 for each APAC medical review.

Funding is only available for progress reviews **whilst** the patient is admitted to the APAC service.

The initial referral to APAC and ongoing medical consultation post discharge from APAC remains funded by the Medicare Benefits Scheme (MBS).

Note: Ferric Carboxymaltose infusions for Iron Deficiency Anaemia are excluded from this initiative.

The APAC GP Liaison Nurse is available to answer any questions about the initiative 8:00am-4:30pm Monday to Friday by calling 9462 9460.
