

Dementia Webinar: Behavioural and psychological symptoms associated with dementia

Thursday 24 September 2020

DATE:

Thursday 24 September, 2020

TIME:

7.00pm – 8.30pm

CONTACT:

For more information contact the Education Team at events@snhn.org.au

Sydney North Health Network (SNHN) invites local General Practitioners, Practice Nurses, Pharmacists, Allied Health Professionals and aged care staff to a webinar on the Behavioural and Psychological Symptoms associated with Dementia (BPSD).

Participants will modernise skills in assessing and treating the most common behavioural and psychological symptoms associated with dementia, including the impact on family or carers. Participants will also differentiate the impacts of both pharmacological and non-pharmacological treatments and design an appropriate management plan for patients with dementia who may develop BPSD.

SPEAKER

Dr Allan Shell | Academic GP and Visiting Fellow (UNSW Australia)

Dr Allan Shell is an UNSW Medicine Alumnus, Academic GP and a Visiting Fellow to the School of Psychiatry's Dementia Collaborative Research Centre.

LEARNING OUTCOMES

- Identify how the most common behavioural and psychological symptoms associated with dementia (BPSD) may present
- Discuss a family and carer plan related to these behaviours
- Develop "Patient-centred" non-pharmacological management options for the various behaviours
- Critique recommended pharmacological options available, including their indications, to treat some of the behaviours
- Design an appropriate management plans for patients with dementia who may develop BPSD
